

TV Reception By Channel Low Power TV Stations and Translators

Mississippi - Missouri - Montana - Nebraska - Nevada - New Hampshire - New Jersey

HD Channels underlined, with bold faced italic print

Highlighted with LIGHT BLUE background.

SD 16:9 Widescreen Channels with Regular print

LT GRAY

Updated January 2015

SPANISH Language channels in RED

NOTES: CP = Construction Permit App = Application + = proposed new facility

Mileage given from TV transmitter for protected coverage service under average conditions at least 50% of the time.

d Notation after "Miles" indicates that the coverage pattern is directional, and overall numbers are approximate.

Actual coverage will depend upon terrain between the transmitter and receive location, as well as any local obstructions.

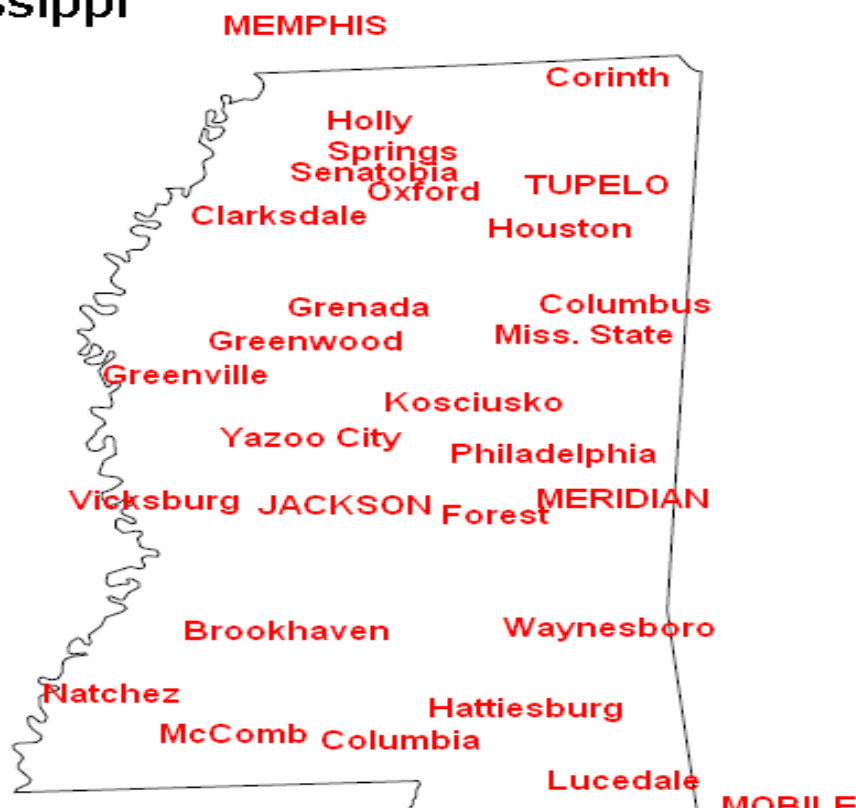

Distant reception can be enhanced with elevated antenna locations, as well as specialized antennas and preamplifiers.

Compiled by MIKE KOHL at GLOBAL COMMUNICATIONS in Plain, Wisconsin

Please E-Mail any corrections to: globalcm@mhtc.net

We appreciate any information found by local observation of live signals.

Mississippi

LPTV and Translator Stations: (alpha by location, numeric by channel)
